## Acheson Says Foreign Ministers See No Present War Threat

### Holiday Death Toll Is Nearing New High Record

Four-Day Period  
Records Nearly 550  
Tragic Fatalities

(By International News Service)

The death toll for the four-day Memorial Day weekend neared the 550 mark today and safety officials called the record-breaking count a "massacre."

Accidents on highways clogged by persons enjoying the first long outing of the season claimed more than 300 lives.

#### Surpasses Previous Record

The nationwide toll surpassed the previous record of 480, established during the Memorial Day weekend of 1947, early Tuesday evening and the figure climbed steadily in the early morning hours. At midnight the total casualties numbered 529.

Ned H. Dearborn, president of the National Safety Council—which anticipated on 290 traffic deaths—said "slam-bang driving and an outstanding demonstration of mass indifference has turned this Memorial Day into a massacre."

The previous record traffic toll for a Memorial Day weekend was set last year when 253 persons were killed.

#### Lead List

California and Illinois led the grimly list with 38 deaths each. Twenty-four persons died on California highways. Illinois reported 22 auto fatalities, one drowning and 15 deaths in miscellaneous accidents.

Texas had 21 traffic deaths, 10 drownings and seven deaths from other mishaps. Michigan reported 20 auto casualties, Missouri 18, Ohio 16, and Indiana 15.

More than 80 persons drowned and at least 120 others died in fires, explosions, plane races and storms.

Three men drowned near Belmar, N. J., yesterday when a 35-foot power boat overturned in Shark river inlet. An auto-train collision near Mount Vernon, Ill., killed a 61-year-old grandfather and his 7-month-old daughter and injured three other persons.

A woman was killed and four members of her family critically injured in a two-car crash at Lake Village, Ind., near Gary.

The death toll mounted despite urgent last-minute appeals from the National Safety Council to motorists to drive carefully on their way home from holiday outings.

Council officials said the fatalities would have been still higher except that a workday Monday forced many motorists to curtail their holiday plans.

Fire Chief H. F. Steinbrink would like to have owners of boats and trailers which can be used in event of a drowning or other water emergency register them by calling Central fire station. With the season for drownings now present, there is a need for boats, the fire chief states. This was found to be the case over Memorial Day, when a woman was drowned in Slippery Rock creek.

Parking meters are being erected on North Mercer street along the site of the former Clendenin building, which was destroyed by fire some time ago.

New Castle and Lawrence county enjoyed excellent weather for Memorial Day. No rain developed and the sun was out most of the day. The local area also escaped any traffic fatalities over the long holiday period.

With two drownings in a few days apparently due to the lack of knowledge of the treacherous condition on the rocks along the Slippery Rock creek, it seems that it would be a safety measure to have warning signs placed along the creek, warning of the need for caution.

## Truman's Campaign Plans Closely Guarded Secret

By ROBERT G. NIXON  
(I. N. S. Staff Correspondent)

WASHINGTON, May 31.—Today's biggest and most closely guarded White House secret is President Truman's campaign plans between now and November.

Information on future presidential travel plans—other than two brief non-camping trips next month—has been placed under a strict ban since the president completed his western "non-political" speaking tour.

The secrecy ban is understood to have been imposed as the result of the "scouting" job done by Victor Johnston, secretary of the Republican senatorial campaign committee, on the president's recent western trip.

Mr. Truman's May trip to the Pacific Northwest was well advertised in advance, and Johnston, traveling ahead by airplane, showed up in the crowds at many of the cities and smaller "whistle stops" where the president spoke.

Mr. Truman has two non-camping trips planned for the summer.

## Bus Service In Columbus Hit By Strike

COLUMBUS, O., May 31.—(INS)—A wildcat strike of approximately 485 bus drivers paralyzed Ohio's capital city of Columbus today.

The strike of the AFL drivers defied an agreement worked out a few hours earlier by city officials and union leaders.

The city's 350,000 residents will be without bus service at least until after an 8 p. m. meeting of the drivers.

The workers called the strike in protest of the 10-day suspension of a driver who accepted a motorist's challenge to fight.

Union leaders and city officials agreed last night on a two-week postponement of the strike but the drivers walked off the job shortly after midnight.

## Defendant In Prague Trial Pleads Guilty

LONDON, May 31.—(INS)—A guilty plea was entered today by the principal defendant at the trial of 13 Czechs in Prague on charges of espionage under an indictment naming the late Ambassador Laurence Steinhardt and seven other Americans.

The indictment involved 21 westerners, including ambassadors of Britain and France.

The guilty plea was made by Mrs. Milada Horakova who was charged with high treason and spying.

The accused are charged, according to a broadcast by the Prague radio, with planning, directing and taking part in a conspiracy to overthrow the Communist regime in Czechoslovakia.

Besides Steinhardt, who was ambassador to Canada when he died in an air crash last March, the other accused envoys were former Ambassador Sir John Phipps Dixon of Britain and Maurice Dejean of France.

The trial of the 13 Czechs in Prague was made known in a broadcast which announced at its start that 26 Czechoslovaks had been given stiff prison sentences at a trial near Pilsen after conviction on charge of spying for the United States. Terms of these so-called "minor defendants" ranged from eight months to life imprisonment.

The 13 on trial in Prague were declared to be "major defendants."

## Diplomas Are Presented To 506 Graduates

New Castle High  
Commencement Is  
Held Monday Night

New Castle Senior High graduated its ninety-second class Monday evening in the Cathedral auditorium.

Five hundred six members of the class of 1950 received their diplomas at the impressive exercises.

Dr. Cary Nelson Weisiger, III, pastor of the Mt. Lebanon United Presbyterian church, was the commencement speaker. His subject, "The Choices We Make," was very appropriate for the group which is passing an important milestone and is about to enter a second, and perhaps even more important phase of life.

#### Stresses Life Choices

The noted minister stressed that certain choices made in life are of "critical importance" and many are "irrevocable." Choices in reading, friends, use of the Lord's Day, life's work, and life's partner were cited as ones that should be made very carefully. For success in this life and in the hereafter, Dr. Weisiger pointed out, the choices should be made with a thought of God before making any final decision.

He used several examples from the Bible to illustrate his talk.

The high school orchestra under Director Joseph Replogle provided appropriate music for the ceremonies. A trombone solo was offered by James Maxwell and a vocal solo by Ruth Mae Simon.

Charles Mancine, class president, was in charge of the program. He introduced Rev. Henry J. Paden.

## Eight Japs Attacking U.S. Soldiers Rushed To Trial

By JOHN RICH  
(I. N. S. Staff Correspondent)

TOKYO, May 31.—Gen. MacArthur's headquarters, acting with unprecedented speed, rushed eight Japanese to trial today for attacking five U. S. soldiers and shouting anti-American slogans in a Communist-led demonstration.

The defendants were taken before a special three-officer U. S. Army provost court in Tokyo less than 24 hours after the Memorial Day outbreaks which occupation authorities regarded as the most serious of their kind since Japan's surrender.

MacArthur's chief of staff, Maj. Gen. E. M. Almond, ordered the tribunal to remain in continuous session until 10 o'clock tonight, if necessary, to complete the trial.

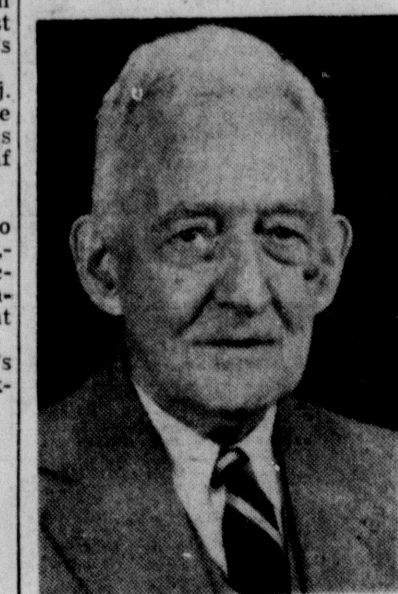

#### Empowered To Penalize

The court was empowered to impose five-year sentences and 75,000-yen fines on each of the accused men—six shirt-sleeved Japanese workers and two students at tired in black school uniforms.

## Warehouse At West Pittsburg Razed By Fire

(Picture on Page 17)

Fire, which was discovered in a warehouse of the Re-Ly-On Products company at West Pittsburg at 5:45 o'clock Monday morning, completely destroyed the building and contents, with a loss which was placed at around \$34,000 by Fire Chief Mike Kessler of the Taylor township department. The cause of the blaze is not known, but it is believed may have been due to spontaneous ignition of highly inflammable materials, used in the manufacture of mattresses, which was stored in the building. It is not known how much insurance was carried on the loss.

Other Buildings Threatened

When first discovered, the building was a mass of flames, and Taylor township firemen at West Pittsburg saved the adjoining plant of the Shaw-Perkins company, with great difficulty, as the flames were sweeping in that direction, and set the roof afire several times.

The West Pittsburg firemen were aided in their battle with the blaze by two fire companies from New Castle, and the volunteer companies from Shenango and

## Congress Hears First Report On London Meeting

Secretary Acheson  
Makes His Report  
To Joint Session

(BULLETIN)

WASHINGTON, May 31.—(INS)—Secretary of State Acheson told congress today that the Democrats can meet only by building "power" the threat of Russian aggressive armed forces "even though Atlantic Pact leaders see no immediate peril of war."

By JOHN A. REICHMANN  
(I. N. S. Staff Correspondent)

WASHINGTON, May 31.—Secretary of State Acheson told congress today that none of the Atlantic Pact Foreign ministers see any immediate threat of war with Russia.

Acheson, reporting on the London meeting of the Atlantic Pact nations and the western big three, also coined a new phrase for the western democracies — "The Atlantic Community."

This community, Acheson declared, is becoming a "political reality of the greatest importance," a community opposed to the imposition of overall power by Russia or any other nation.

#### Historic Joint Session

Acheson spoke at an historic joint session of congress in the auditorium of the Library of Congress. Touching the possibility that the cold war might turn into a shooting or atom bomb conflict, he said: "First of all, it should be made plain that there was nothing which any of the foreign ministers had to say which indicated there is any immediate threat of war."

It was our unanimous view that this is not the problem, the problem is to meet a threat which, in view of the known program of the Kremlin, will exist unless we act now to prepare our defenses against aggression.

"It was made unmistakably clear in all our discussions that our common purpose in preparing our common defenses is a peaceful one. We hope we never need them."

"But so long as any dictatorship (Continued on Page Two)

## German Youth Paraders Burn Blue Shirts

HELMSTEDT, Germany, May 31.—(INS)—Three thousand members of the Communist-led Free German youth organization burned their identifying blue shirts on their return to western Germany today in an apparent effort to escape assault by anti-Communists.

The youth organization members removed and burned their shirts on arrival at the Soviet check-point of Helmstedt where some 500 other Communist youngsters were set upon last night.

The youths were enroute back to their homes from the Communist-Whitens rally in east Berlin.

#### Shirts And Flags Taken

The advance returnees last night had their shirts and blue flags torn from them by irate anti-Communists who tossed the clothing and insignia into bonfires.

Some 100 buses were in readiness today to pick up the major group of Communist youngsters to take them to their homes. The (Continued on Page Eight)

He was assisted by Lts. Pagley and Taylor. At one time during the event, traffic was backed up as far as Jefferson street in downtown New Castle.

The day's program closed with a gala display of fireworks put off through the courtesy of the fire company. The firemen's effort to secure funds for a new fire house and other facilities in the township continues throughout the week with a carnival event being staged.

Supervising Principal J. Arthur Turek of the Union township schools, conducted the registration while judges for the day included: Charles Porter of Beaver county; J. C. Wachtman, Sherman K. She finally clutched his arm and he said he had to break loose and grasp a root which projected out into the water to save himself, as he was exhausted.

### Rescuers Called

The Ellwood City fire department rescue squad was summoned and they put two boats into the water. Later in the evening Monday they were joined by members of the Slippery Rock township volunteer fire department and the stream was dragged until after midnight, when the rescue workers had to give up.

The search was resumed shortly after daylight Tuesday, the Ellwood City and Slippery Rock men being joined by New Castle firemen with their boat, which is supplied with an outboard motor. Others who aided were Robinson and Hamilton, who sent their truck and a boat and trailer; Jack Rose, who went to the scene with a boat, and a trio from the West Side, George Grieve, Bert Sisley and Ray Kearns, who furnished and manned a boat. Many others went to the scene and also aided.

builds powerful armed forces, so long must democracies, if they are to be left in peace, evidence their determination to defend themselves by maintaining adequate forces in being and an adequate state of preparedness.

### Need Combined Effort

The secretary of state said that the defense and other works of the Atlantic community are so great that "only a combined effort will be adequate."

For this reason, he explained, the big three nations have worked out the joint defense agreement which provides for the United States supplying large strategic bombing and naval forces, Britain fighter aircraft and tactical bombers and France and the other continental nations ground forces.

Acheson urged naming of "the best men the members (nations) can assign" as deputies to the foreign ministers to serve as representatives on the Atlantic pact council.

Acheson praised France, her foreign minister Robert Schuman, for proposing an end to age-old nationalistic enmities on the European continent through combining the coal and steel resources of France and Germany. He termed the proposal "a momentous and courageous act, paving the way for Germany's re-entrance into the free western community."

### Strong Stand

The secretary of state said that the big three's statement of determination to "maintain our rights in Berlin, together with our actions in that city in recent months, may have had some influence on the relative quiet which prevailed in Berlin on Sunday."

Acheson did not hesitate to blame the precarious world situation on Russia. Referring to the lack of an Austrian peace treaty, he declared that steps would be taken to formulate a pact "despite the continued and callous blocking of the peace treaty by the Soviet Union."

The secretary said the western democracies have made great economic progress since the war. He added:

"This has played an essential part in strengthening their social and political structures and preventing subversion of their free institutions."

"While this had been going forward, the Soviet Union had been devoting so much of its resources to military purposes that a dangerous situation was developing."

## In View Of News Of The World

By J. C. OESTREICHER, INS Foreign Director

### Seek To Boost U.N. Prestige

A far-reaching attempt to encourage and solidify prestige of the United Nations lest its influence upon world affairs vanish in the frigid winds of the cold war was apparent today.

Secretary of state Dean Acheson, back from the big three conference of foreign ministers in London, met correspondents at the pier while en route and almost emphasized upon the importance of this world organization.

He had spent days in London and Paris in deep and sometimes desperate negotiations with ailing foreign secretary Ernest Bevin of Britain and with foreign minister Robert Schuman of France.

If either of his foreign counterparts in Europe is disillusioned, Acheson gave no hint of it. But he did make clear to everyone that the chief pre-occupation of world leaders at the moment is some assurance—if it can be obtained—that the United Nations will not be permitted to die of neglect, contempt, or disuse.

**Atmosphere Of Hope**  
Acheson holds, along with U. N. secretary general Trygve Lie, that this organization after all was established in a resolute atmosphere of hope and good will and that any systematic destruction of its utilities by scorn or lack of attention is untenable.

Both the secretary of state and the secretary general obviously have had uppermost in their minds the completely unworkable situation that has prevailed in the United Nations since Soviet Russia's complete boycott of its meetings at which Nationalist China is represented.

Lie favors admission of representatives of the Communist government to get the wheels of progress moving.

Acheson opposes it, because United States policy condemns Communism everywhere and obviously has been framed on the line that China is Communist seating on United Nations committees would imply recognition.

But it seems clear that in the next few days, after the German Communist impetus has spent itself in Berlin and the full results of the Whiteside youth day celebrations are known, the status of the United Nations in world affairs will shake down to a real test, pro or con.

**Must Resolve Doubts**  
Trygve Lie has expressed grave doubts of any forward measures at the scheduled general assembly session in the fall unless at least some of the major doubts of the moment are resolved.

He foresees the possibility of the organization meeting in a vacuum, unsure of its status and even more doubtful of its future.

International observers who witnessed the work of the ad league of nations in its declining days at Geneva are likely to recall past desperate efforts to salvage a world institution dedicated to peace.

They remember such electric voices as those of Aristides Briand of France and Sir Austen Chamberlain of Britain—even that of Gustave Stresemann of Germany who has been depicted since his death as an enigma of confusion between Prussianism and peace.

Those were the men who tried to keep the old league alive.

## The Parent Problem

By Garry C. Myers, Ph. D.

### CHILD PUT "ON PROBATION"

A great many grade school children will be promoted this June on probation.

On the surface, this plan seems to be good. It gives the child the benefit of a doubtful judgement of the teacher in which grade he has been this spring and offers him a "second chance." His parents may be able to have him attend school or be tutored.

**Might Be Ideal**  
If his parents, and if the teacher to whom he will be sent on trial next fall, were always wise the plan might approach the ideal. But the average child promoted on probational hazards, is parents remind him often during the summer that he will be demoted next fall if "he doesn't work hard enough," especially at times when they are vexed at him about other matters. Then when he enters school next fall he may not be allowed at home to forget for single day the sword of Damocles hanging over his head.

If after several weeks he must go back to the lower grade consider the ignominy. All the children of his class and all his playmates at home will know about it. But if he "makes it" and is allowed to go, on the temporary effect may be good.

**All The Advantages**  
It has always seemed to me that all the advantages aimed at by the school through promotion on probation could be gained and the awful emotional hazards could be avoided if the child were promoted or not promoted in June, according to the best judgment of the teachers, without reservations. If she felt sure the child could profit from summer school or special tutoring she should so apprise his parents and try to prevail on them to provide such help for the child. She might also help the parents secure a competent tutor and confer with this tutor and the parents on specific ways in which the child could be helped. In some cases this teacher might even advise the parents to seek the help of a psychologist or other expert to study this child and guide them in helping him. If however, the teacher is sure she should promote a child on probation, she should sit down with the child's parents and entreat them never to bring the matter up as a threat to him or to worry him over it. Indeed, she might win the parents to find some help for the child during the summer.

Republican congressional wives are taking a course in public speaking to help their husbands get re-elected. Which could cause President Truman to change his mind about going anywhere he's needed to help a Democratic candidate.

DEARBORN, MICHIGAN, PRESS: "Debts of state and local governments have gone up in the last year, according to the Census Bureau, which reports that they reached an all-time high of \$20,875,000,000 last June 30th. This looks like a large amount but it is nothing compared with \$252,000,000,000 that the Federal government owes. The total, \$273,645,000,000 amounts to \$1,834 for every man, woman and child in the country."

NORWICH, NEW YORK, CHENANGO UNION: "It is a basic principle of democracy that might does not make right. When that principle is disregarded by any individual or group of individuals, whether it be a labor union or an association of employers or a political party, our system of liberty and justice for all is endangered."

AIKEN, S. C., STANDARD AND REVIEW: "In England . . . more and more restrictions have been placed on the freedom of the workers . . . In that country men and women cannot change jobs without permission of the government and when such a condition exists there is no longer any free labor. Free labor and free enterprise go hand in hand. We cannot have one without the other."

With such parades and celebrations all over the nation yesterday . . . a sad, very sad fact occurred . . . Deaths . . . they say occurred every 20 seconds. That's mighty frequent . . . start reading this column . . . an auto caused a death and when you read the last word of the first paragraph another death by auto was chalked up on the board. Something must be done . . . and it's everyone's duty to act . . . SAFETY . . . it's not a word to merely say . . . SAFETY must be practiced each and every minute that you are behind the wheel of your high powered motor car.

And another parade that was really something to see . . . fire trucks . . . more of these than the citizens of this community have seen at one time. Union Township sponsored this event and we agree with hundreds of others in the county . . . a spectacle that was well worth their untiring effort.

## One Man's Opinion

By Walter Kiernan  
(By International News Service)

The next draft act will be called "the manpower registration act." This will make it seem less drafty.

And it will not be effective until congress declares a new national emergency and that may not be for some time . . . the one we've been operating on for 18 years is still giving good service.

So there won't be any call-ups for physics . . . perhaps just a card certifying "I drove on a state highway over Memorial Day weekend."

This in itself will establish a high state of courage, skill, initiative, coordination and exceptionally good luck.

But for the moment it looks like our young fellows have nothing to worry about this summer except falling out of a canoe or into love.

These are fairly pleasant hazards in which the government, at the moment, has no interest . . . there is no prospect of excise taxes in either one.

### LINE TO A GOLF BALL

Little golf ball, year by year  
Gaining yards of distance clear,  
As the advertisements say,  
When I take you out to play,  
Even with my faulty style,  
I should drive you half-a-mile.

Added to my drives before,  
Every year ten yards and more,  
Multiplied by thirty-five,  
Half-a-mile I ought to drive.  
Golf ball, for my ninety scores  
Mine must be the fault, not yours.

Little golf ball, on the tee  
Would that better I could be.  
Would to boast my friends were moved:  
Every year is he improved;  
Better will the bear a blow;  
Longer distance will he go.

Golf ball of the printed page,  
Would that I improved with age.

**HOTEL BRANNAN**  
The Brannan Farm Plan does not go far enough. Let's apply it to other industries. Let's have a Brannan beer joint where we can get a large mug of beer for a nickel. We need a Brannan hotel where we can get an old-fashioned square meal for 15 cents. And we should have a Brannan barber shop where we can get a haircut and a comb for two bits. Then let the Government send the beer dealer, the barber, and the boarding-house lady a subsidy check for the balance. John can pay the bill. John Q. Taxpayer has lots of money. He likes it, I guess. At least, he voted for much of the New Deal gimme stuff. Letter in the Hutchinson, Kan., News-Herald.

Secretary Acheson and President Truman should be fully aware of this since so much of the burden rests on them. Whatever Lie has to report must be considered with the utmost seriousness as a possible basis for further and as yet untied steps.

Direct Negotiation?  
One of these steps might well be another attempt at direct negotiations with Moscow. Acheson has in the past resisted such a move, one reason being a fear that if the negotiations failed then war would certainly appear to most Americans to be inevitable and the sooner the better. Another apprehension is that any approach from the west would be taken by the Russians as mere appeasement.

Now however, may be the moment to re-examine the whole issue of direct negotiation to try to settle the outstanding sources of conflict between the two powers. ## Politics In Short

(By HOLMES ALEXANDER)

WASHINGTON, D. C., May 31  
THE NEW GEOGRAPHY. Political mapmakers in both major parties must have learned something from the recent primary victories of Rep. Smathers and Gov. Duff. The Florida and Pennsylvania campaigns surely show how far left a Democrat can safely stray and how far right a Republican can wander without falling off the edge. It was clearly indicated in Florida that Claude Pepper had one foot in the bad lands because of his ultra-liberal activities. But it was just as pointedly demonstrated in Pennsylvania that Joseph Grundy and Co., were lost in the 19th century with their back-to-normalcy technique. Somewhere between these two extremes is the mainland of American politics where next year's 82nd Congress seems destined to dwell.

THE BUMPY BANDWAGON. In a three-column editorial last week the Washington Post called for a National Security Commission to investigate disloyalty and to discourage the popular political sport of witch-hunting. Since this is a highly moral proposition, politicians from both parties leaped aboard the bandwagon—but it's going to be a rough ride. On the basis of past performance, it's too much to hope that the first fine careless rapture will continue. Both sides have too much to lose in a campaign year. To the Democrats, the mere appointment of such a commission proves that the Administration can't clean its own stable. How's that going to sound in Illinois where Senator Lucas, the Administration floor leader, is lauding the True Deal as the noblest work of man? To the Republicans, such a commission would steal the thunder of GOP denunciation. How is Senator Hickenlooper going to get re-elected in Iowa without flexing his biceps as the great cross-questioner of Lillenthal and Lattimore? Now that the first frenzy of their righteousness has subsided, lots of politicians are wishing they hadn't shouted so loud for salvation. The Security Commission, like the Hoover Commission, could turn out to be one of those things which benefits nobody—except the American people.

LOUDER, PLEASE. Dr. Roy Blough, newly appointed to the Council of Economic Advisers, had a tough two hours in the witness chair before the Senate subcommittee on Banking and Currency. When the learned doctor got to the end of it all, Senator Taylor as committee chairman apologized for keeping him there so long. But most of us at the press table thought the apology should have been reversed. It was Blough who prolonged the hearing by a seeming inability to answer simple questions. Yes and no was his reply when asked about his belief in balanced budget. "Maybe" and "perhaps" was the clear-cut way he summarized his views on the national debt. Two hours is a long while to be grilled by U. S. Senators. But it wasn't long enough for anybody to discover what Dr. Blough really did believe about national economics.

WHERE'S MASSA? It's been many a year since we approached a Congressional election in which the power of the boss was so negligible a factor. Where are the masters of yesteryear's precincts? Gone from their thrones are the Crumps, the Hagues, the Currans, the Kellys, the Curleys. True, the ranks have been thinning over a period of years, but suddenly there is none except Boss Arvey of Chicago to keep the old tradition alive. Quite aside from the sentiment which attaches to old acquaintance, the bosses will be missed. After all, they were representative of their communities. They existed and their sins were tolerated because Americans are neighborly by nature and take a pride in the ward, the town, the state where they live. But the community boss is now being displaced by the ideological boss. Winning candidates will need endorsement by a CIO leader, an American Legion commander, a Save-the-World spokesman. If this is to be a continuing pattern, then a lot of localism has gone out of American politics. If the boss rule was wrong, at least it was good Americana. Give us our sin again!

## Looking At Life

By ERICH BRANDEIS

"Truth is stranger than fiction" is an old saying.

But I do wish that the jolly adventurers who like to live the kind of lives that MAKE truth stranger than fiction would leave their escapades to the fiction writers.

Now we have another Hollywood episode.

By the time you read this in print that latest affair may be old stuff. It may be all over and the seekers after stranger-than-fiction truth may have wandered into even greener fields.

Still married Frank Sinatra has fallen in love with twice-married Ava Gardner, according to reports. He flew to Spain to visit his lady love and found that a Spanish bull-fighter by the name of Mario Cabre was also in love with her.

Just a few days previously the newspapers reported that Sinatra's wife had tied up all his property.

But now we hear that he presented the beautiful movie actress with a \$10,000 emerald necklace. Just like a dime novel, isn't it?

Miss Gardner, formerly married to Mickey Rooney and Artie Shaw, was asked whether another marriage was in the offing.

"It is much too soon to talk about that," Miss Gardner is reported to have replied.

And she is said to have added, her next marriage would be "for eternity."

Eternity is a flexible word. Sometimes an hour seems like eternity.

When you are looking forward to something wonderful every minute seems an eternity.

Have you ever spent a boring evening with guests with whom you had nothing in common? Only three or four hours—but an eternity, just the same.

A few days ago another movie actress was being interviewed.

I forgot the name. The martial affairs of Hollywood's divorce-society are too complicated to remember. (I use divorce-society in the sense cafe-society is being used.)

This actress, about to marry her fourth or fifth or sixth husband, said with a gay smile:

"I have lots of fun with my men while it lasts. Then I forget all about them."

That woman probably goes to

church. She probably knows all about what is said in the Bible on the subject of the sacredness of marriage. She probably expects God to give His blessings to every one of her matrimonial adventures. And she probably considers herself a smart, a sophisticated, and a good little girl.

Sometimes I wonder how many of the pious divorcees remember the 10th chapter of St. Mark, where in the 12th verse:

"And if a woman shall put away her husband, and be married to another, she committeth adultery."

But, lest men mark that this applies only to women, let them read the 11th verse of the same chapter.

## Western Allies Will Protest

BERLIN, May 31.—(INS)—The western allies announced today that a protest will be filed with the Russians against the seizure of an American-led allied patrol last night by Soviet troops.

The ten-man patrol, including four Americans, four Britons and two Frenchmen, was taken into custody at gunpoint by the Russians when the patrol members rejected original Soviet orders to leave their station on the Berlin-Helmstedt Autobahn six miles west of Berlin.

The patrol members were held for 20 minutes before they were released in custody of U. S. liaison troops.

The patrol, commanded by First Lieut. Charles Brecher, of Long Island, N. Y., was at a station on the highway travelled by west Berlin-west German traffic to insure that travelers did not stray into the Soviet occupation zone during the Whitenside rally of the Communists.

American officials said a Soviet colonel yesterday afternoon directed the patrol to leave the highway point. When Lieut. Brecher refused, the Russians put the patrol under Soviet guard and herded the men off to Soviet headquarters at Babelsberg, close to the U. S. sector in Berlin.

## One Auto Accident In Lawrence County Over Memorial Day

Only one motor vehicle accident was reported to State police Memorial day, according to their reports.

He is in improved condition in the Jameson Memorial hospital.

He was driving east and at the intersection of Route 278 on road to Pulaski, his car ran into the retaining wall. It was damaged badly.

## Prisoner Of War Post Leads To New Enterprise Here

Another new industry begins operation in New Castle this week. Lawrence Chemical Products company, producers of Nap-Sheen, is the business formed by two local men with operations at 640 East Washington.

Matt W. Hoffman and Michael A. Pauline are the partners in the organization, which already employs five and has a definite eye toward expansion.

Both are graduates of New Castle high. Mr. Pauline has studied at Westminster, Duke and Stanford. Mr. Hoffman attended Slippery Rock college.

Both are veterans of World War II. Mr. Hoffman served in the Navy and Mr. Pauline with Army Intelligence.

It was while working with the Army that Mr. Pauline first conceived the idea of Nap-Sheen, a rug and upholstery cleaner. Pauline was in charge of a prisoner of war camp that had German officers of

the rank of general. One of the prisoners interrogated was a lieutenant-general and former employee of I. G. Farben, the great German chemical firm. The general was interested in a cleaner similar to the one now being manufactured by the new industry and was influential in Mr. Pauline's development of the product.

The cleaner works by a chemical action different from any upholstery cleaner now being marketed. Since the war the partners have been experimenting with the product among furniture and upholstery manufacturers of western Pennsylvania. The new cleaner received the endorsement of each that was consulted and the men decided to produce the cleaner commercially, they report.

W. J. Harmer, called to the Canadian Senate in 1918, never made a speech during 29 years in the Senate.

Some 100 writers turn out about 80 per cent of America's detective fiction.

## Japanese To Vote Sunday

TOKYO, May 31.—(INS)—Japanese voters will go to the polls Sunday to elect 132 members to the house of councilors in their nation's two-chamber diet (parliament).

Entered in the race are 568 candidates, 25 of them women. Of these, 313 are competing for 56 national district seats, while 255 others are vying for 76 prefectural (provincial) mandates.

The house of councilors—the equivalent of the United States senate—consists of 250 members, half elected for six-year terms, the other half for three-year periods. There are 100 national district and 150 prefectural district seats in the chamber.

This first statutory tri-annual councillor election under Japan's new constitution has aroused little popular enthusiasm. Political experts ascribe this apathy mainly to the fact that the outcome of the polling can have little direct effect upon Japan's political situation.

Only a defeat in a general house of representatives election could unseat the present liberal party government headed by Prime Minister Shigeru Yoshida.

Nevertheless, the liberal party, which is conservative despite its name, has entered the campaign with vigor, nominating by far the largest number of candidates. Running on the liberal ticket are 138 hopefuls.

**Charges Made**  
The Leftist workers were charged with having assaulted, kicked and stoned American army personnel during riotous demonstrations by some 3,600 Japanese in Tokyo's imperial plaza and Hi-biya park, across the street from MacArthur's headquarters.

The Americans attacked were identified as Capt. William G. Clarke, of Baltimore, Md.; Sgt. Peter W. Koehn of Oklahoma City; Sgt. Terry K. Yamamoto of Wahiawa, Oahu, Hawaii; Cpl. Henry K. Yamashita of Honolulu, and John J. Thomas of Detroit.

The two students were accused of shouting "Down With America" and "Down With MacArthur."

All the defendants pleaded innocent as the trial began in a courtroom heavily guarded by American MPs and Japanese police.

The formal complaint against them alleged that they had violated Gen. MacArthur's first directive issued September 2nd, 1945, forbidding any interference with the functions and objectives of the allied occupation.

The eight men also were formally charged with violating the Japanese penal code provisions against public disorders.

## Urge Freedom For Romania

Protesting against the Communist domination of their native land, Romanian-Americans of New Castle have asked the United Nations to intensify its actions in endeavoring to free Romania of the Communist shackles.

Sunday, May 28, a meeting was held in the Albino-Romanian Benefit society club rooms on South Jefferson street attended by a crowd of persons with more than an academic interest in Romania's welfare. John Suciu president of the society presided.

The plight of Romania was pointed out by speakers. First Hitler, then Stalin, the nation has been under the oppression of a dictator since 1939. Today it is little more than a province of Soviet Russia.

Telegrams were ordered sent to President Harry S. Truman and the president of the United Nations, General Carlos Romulo, protesting the oppression of Romania and asking that vigorous action be taken by that body towards the freeing of the nation.

## Try And Stop Me

By BENNETT CERF

In a ritzy suburb of Chicago relates Marcia Winn, there's a garbage collector who takes his job very seriously, with a special uniform, a special pail—even a special mop. An approving resident watched him removing refuse

with dainty precision, and invited him in for a drink. Over scotches and soda the resident said, "I think you're the finest garbage man in Illinois."

The collector, not to be outdone responded gallantly, "I have a high opinion of your garbage, too."

"Capper's Weekly" has a new twist on the standard story beginning, "Darling, how about giving me a diamond bracelet for

our tenth anniversary?" In the new version, the badgered husband, a very cagey fellow this time, answers, "My dear, extenuating circumstances necessitate my precluding you from such a bauble of extravagance." The wife, trapped, admits, "I don't get it." The triumphant male answers contentedly, "That's what I said!" (Copyright, 1950, by Bennett Cerf. Distributed by King Features Syndicate)

## Independents Run Strong In S. Korea Voting

SEOUL, May 31.—(INS)—Independent candidates were making a strong showing today in incomplete returns from the election for a new South Korean national assembly, the nation's one-house parliament.

Indicating a possible setback for President Syngman Rhee's government party, the returns appeared to give the Independents some 40 per cent of the 210 assembly seats for which 2,168 candidates competed.

Twelve women were among those seeking election to the new parliament, scheduled to convene June 19.

The tally thus far indicated that considerable additional strength may be garnered by those assembly groups which have been pressing for a limitation of the president's powers.

Approximately 90 per cent of South Korea's eight million registered voters went yesterday.

Four campaign workers were reported killed in scattered disorders. One police box, one polling place and the homes of two rightist candidates were reported burned.

Large-scale Communist outbreaks, which had been predicted by officials, failed to materialize.

## Report Two Children Taken From School

PITTSBURGH, May 31.—(INS)—A Fox Chapel, Pa., lumberman today reported his two children had been spirited from school in a taxi.

The children are Peggy Ann Diebold, 11, and Anthony (Tony) Diebold, 6, students at nearby Aspinwall grade school.

They are the daughter and son of Elmer Anthony Diebold Jr. and his first wife, Helen Mossman Diebold of Miami.

Police said that they are convinced the first Mrs. Diebold was in the cab.

The wealthy and socially-prominent Diebolds were divorced in Reno three years ago this month. Mrs. Diebold obtained the divorce on grounds of cruelty.

Diebold, who has since remarried, phoned Capt. Rose Kennington of the Pittsburgh missing persons bureau to report the snatching.

Police sounded a county-wide alert. Allegheny County detectives joined in a search of roads, trains, buses and airports.

Capt. Kennington got part of the story from Eugene Jacques, principal of the school. He reported the children were driven off in a black cab.

## Big Clock Is In Service

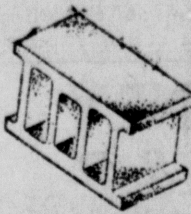

Emmet L. Kurtz, retired substation operator, turned the switch which illuminated for the first time the giant clock and sign on the West Washington street substation of Pennsylvania Power company Monday night at 9 o'clock.

The hugeness of the sign, plus the brilliant colors of the lights, make it visible from many sections of the city.

The sign is 65 feet high and 44 feet wide, while the clock is 14 feet in diameter. It is expected that it will soon become one of New Castle's most outstanding landmarks.

The cigar lighter was patented in 1871 by Moses F. Gale.

## Report Dr. Fuchs Has Implicated Gold In Statement

LONDON, May 31.—(INS)—Convicted spy Dr. Klaus Fuchs was reported by the London Daily Mail today to have implicated U. S. biochemist Harry Gold in a signed statement.

The newspaper said the scientist gave the statement to FBI agents Hugh Clegg and Robert Lamphere during questioning yesterday in Wormwood Scrubs prison.

The 38-year-old Philadelphian was arrested May 23 and accused of being the contact man to whom Fuchs gave top secret atomic information for transmission to Soviet Russia.

Clegg and Lamphere, who began questioning Fuchs the day before Gold's arrest, are expected

to return to the U. S. later this week.

The FBI agents were said to have received the utmost cooperation from Fuchs, who is serving a 14-year jail term for espionage. The scientist reportedly has given the G-men much additional information and to have identified pictures of several other persons implicated with him in the Red spy ring.

## New Evidence Plane Blew Up When Attacked

WASHINGTON, May 31.—(INS)—The navy produced new evidence today that the U. S. privateer plane fired on by the Russians exploded in mid-air before it crashed into the Baltic Sea with ten men aboard on April 8.

Exhibiting the plane's front landing wheel, which was found by a Swedish fisherman 48 miles off the coast of Latvia, Lt. Comdr. M. W. Cagle pointed to a lever in a position showing that the wheel was retracted when the plane crashed. He said:

"In my opinion, this wheel could not have been torn out of the plane unless it had exploded in mid-air, had lost at least one of its wings, and had spun with terrific force into the water."

Cagle disclosed that further tests will be made by the Navy Bureau of Aeronautics to measure fender dents. This will determine exactly the force with which the plane hit the water and therefore the probable altitude from which it crashed.

**Wheel from Plane**  
The navy spokesman said there was no doubt that the wheel, weighing 380 pounds with its fender and shaft, was from its privateer. He pointed to a metal tag showing that it was overhauled in Corpus Christi, Tex., a year ago.

The wheel floated because its huge tire was inflated with 65 pounds of air. It was found April 26 by Swedish Fishing Captain Anton Nilsson.

Cagle said that the currents in the area averaged about one mile a day northward, and that the scene of the crash therefore was about 30 miles off the coast of Latvia.

The spot is approximately 300 miles from the point where the plane last reported by radio that it was leaving the German coast.

White lines to designate traffic lanes were introduced in Boston in 1919.

## Would Change Zoning Law

## Measure Presented To City Council; Other Council Action

When council met Monday in city hall, Director of streets E. Gene Schweinsberg introduced two bills connected with the request of Wyatt R. Campbell for permission to erect a building, containing a garage and apartments on his plot at Delaware and Moody avenues. The bill was referred to committee before further action is taken. The plot is now in an 'A' zone.

The first ordinance provides that, all land lying between Moody Avenue and Laurel Avenue, on the north and south, and Delaware Avenue, and Logan Street, on the east and west, shall be changed from a partly 'A' residence district and partly 'B' residence district, to an entirely 'B' residence district.

The bill amends Ordinance 3873, known as the Zoning ordinance, which was passed in 1925.

The second measure provides for the amending of the Zoning ordinance by adding an additional classification of permitting uses, so as to provide for the erection of buildings, and the use of land, for mortuaries, funeral directors, undertakers, and the sale and furnishing of undertakers supplies at wholesale, now in the city, existing as non-conforming uses, now permitted in 'B', 'C' and 'D' zones. Under provisions of this proposed ordinance, land in 'B' and 'C' residence districts may be used, and buildings for such purposes, may be erected.

There are two petitions before council which protest the request for the erection of the Campbell structure, claiming that to permit such would be a violation of the Zoning ordinance.

**POLICE WOMAN ELIGIBLES**  
When council met Monday, Attorney Ralph A. Cooper, secretary, City Police Civil Service commission, reported three candidates had successfully passed the civil service test to fill the position as police woman.

He gave their names as Mary J. Nord, 100 percent; Bertha Rodenbaugh, 93 percent, (over-age) and Margaret V. Mackiewicz, 90 percent.

**GRANT EXCAVATION PERMITS**  
Council granted to the New Castle Water company permits to excavate for new water lines in Highland Avenue between Englewood Avenue and the city line.

**GRANT TRAFFIC LIGHT REQUEST**  
State Highway Department notified council it had granted the request of a city to put up an overhead, four face, traffic signal at West Washington Street and Greenwood Avenue.

**CITY TO OIL AVENUE**  
Because a dust condition is caused by candidates for motor vehicle operator's license in Vogan Street, the city has delegated E. Gene Schweinsberg, streets director, to learn if he can procure oil and

have the streets department oil the thoroughfare, as asked by residents.

**GRADING PETITION**  
Council referred to committee a petition which asks for the grading and grading of William Street between Junior High and Lutton Streets. It was reported that before such could be done, a fill would be necessary, hence the petition was referred to the committee.

**GRANT CONDUIT REQUEST**  
Council granted a sanction to the Bell Telephone company to lay an underground conduit in Butler Avenue to Raymond Street, from East Washington Street.

**WILL INSURE PAVILION**  
Councilman J. F. Medure told colleagues he has procured an insurance agent, who would insure the dance pavilion at Cascade Park for a period of three years, as asked by council.

**NAME EMPLOYEES**  
Council approved E. Gene Schweinsberg's appointment of Joseph Dukes, Felix Conti and Samuel McCurdy to the street department. Dukes replaced a man who resigned. Conti takes the place of an injured employee, and McCurdy, who has been on pension

(which is now held up by a court suit) is a former employee, and acts as a paver.

**SEWER CAVES IN**  
Engineer John Z. Street informed council that the sewer at the Mahoning Avenue viaduct had caved in, for the fourth time. Council will view the cave-in sewer.

**PASS SICK LEAVE BILL**  
Council today adopted an ordinance providing accumulative sick leave of 2 1/2 days per month to all city employees. They will receive their wages while they are on sick leave, providing they present a physician's statement to the city controller.

**VOICE OPPOSITION**  
City of New Castle has voiced opposition to the P.H.R.'s proposal to remove Trains 404 and 405, operating between Beaver Falls and Sharon, from service. The Public Utilities commission will hear the railroad's application in the court house here, June 21.

## Holiday Crowd As Gaston Park

Summer-like weather of Memorial Day brought out several hundred people to Gaston park for picnics.

Complete with tables, shelters, and outdoor cooking facilities, plus beautiful scenery, it proved

to be a favorite spot for those who wanted to have a picnic on the holiday but who didn't want to travel on the crowded highways. Children stood in line to have a chance to use the swings and the sliding board was shined off for the season by the constant flow of youngsters who enjoyed the apparatus.

## BUSY GROCER

SALT LAKE CITY, Utah.—(INS)—A Salt Lake City grocer is more than just a friend and a salesman to his customers. William Peck operates a grocery store in Airbase Village, a veterans housing project and it seems that although Mr. Peck's real business is groceries, he has taken on the job of being Mr. Fix-it to the village. He finds himself arranging for dry cleaning, legal services, operating a self-service laundry, and leasing space to a barber.

## New Wilmington Kiwanis Members See Football Film

Members of the New Wilmington Kiwanis club saw films on "The Cleveland Browns of 1949," shown by Moreland Thompson, at their regular weekly dinner meeting Monday evening.

Committee for the Charter Night program announced that plans for the evening are complete. The tenth anniversary of the club will be observed Tuesday evening, June 6, with a Ladies Night program near Greenville.

All former members of the club and their wives are invited to attend the affair. A large delegation from the New Castle club is expected to be present.

Golf match with the New Wilmington Rotary club will be held Thursday evening at the Tam-O-Shanter golf course, it was announced.

President Howard Rodgers and Secretary William Reed gave a report on the dinner at Beaver Falls last Thursday for District Governor Jones.

## Restore Detour On Route 422 Today

Holiday traffic which was permitted to flow over the New Castle-Butler road, Route 422, has been re-routed again today and the road closed in order that the contractor for the new route 422 may continue his work.

Permission was granted Alfred A. Martin, County Highway superintendent to have the closed road thrown open for traffic over the holiday week and thus eliminating a holiday traffic bottleneck which would have resulted on city streets. Motorists used the road Sunday, Monday and Tuesday and today with the detour being placed back on the highway. Route 422 traffic is being re-routed over Route 88, the New Castle-Ellwood City road.

With the heavy traffic on all highways of the county over the week end, the move was a welcomed one by motorists and saved Route 88 from double traffic duty if the detour had not been lifted.

### OLD GIRLS

Girls will be girls regardless of their age. An old girl is much the same as a young girl only she looks different. It is safer not to mention that old stuff.

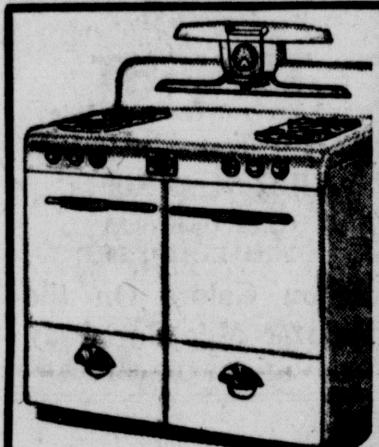

Whether old or young, girls need some work and some play. One very important thing for them is moderation. That is a pretty big word and it means a lot. Too much play is perhaps worse than too much work. Play and recreation should be managed so that work will be easier and better.

Sometimes work and play may be combined. Mom gives baby a bath and they have so much fun that Dad forgets that it is part of her work.

# Senators Win Two Out Of Three From Youngstown, Increase Lead

## Erie Sailors Are In Town For Three-Game Series

New Castle's hustling young Senators are leading the Middle-Atlantic league pack today by two and a half games. The Senators played the Memorial Day double bill at Youngstown, winning last night 16 to 7, and dropping the afternoon contest, 9 to 6. Monday night The Senators bested The Athletics 2 to 1, with Herb Churchill registering his fourth win of the year, against no defeats, to stay among the loop's top hurlers.

George Becka got credit for the Tuesday night game, his fifth win of the year, against one defeat to retain a spot among the leading hurlers.

Bernie Rossman was the loser on the Tuesday afternoon tilt.

**Erie Sailors Here Tonight**

The team that made it possible for New Castle to enjoy its two and a half game lead—the rampaging Erie Sailors will open an important three-game series here tonight, at Flaherty Memorial Field, (weather permitting) at 8 o'clock. The veteran Frank Wagner will make his first start of the 1950 season tonight, Manager Cronin announced. He has won one in relief.

Erie by trouncing the Butler Tigers twice yesterday 20 to 10 and 10 to 4, are now in third place in the league only three games off the pace. Butler has second place, and Oil City has dropped to fourth place.

**Famiglietti Hits Third**

Tommy Famiglietti hit his third homer of the year at Youngstown yesterday afternoon in the third inning to help with the uprising that gave the Senators five runs and a 6-to-4 lead. Two men were on base when "Fam" busted the apple over the left field barrier.

The Senators have won five out of six from their Youngstown neighbors and looked sharp in winning two out of three over the holidays on 27 hits, and scoring 23 runs while giving up 25 hits and 18 runs to the Athletics.

Herman Kiel, the New Castle blaster, only appeared once in the games at Youngstown, being sent out to pinch hit in the afternoon tilt Tuesday. Kiel has been bothered with a sore arm in the past few games. He may get back into the line-up tonight against Erie, it was announced.

Johnny Vizzini, the rookie first sacker, got back in the line-up last night and responded with three hits in five trips and played well at the first base bag. Dunterman was given a rest last night, with Schindler going back of the plate to give Horne a rest also.

**Ladies' Night Thursday**

Thursday has been announced as "ladies' night" at Flaherty Memorial field, with Erie playing here. The fair sex will get into the ball park with the paying of a 25-cent service charge.

The crowds at the local ball park have not been too large considering the type of first place ball the Senators have been playing. It is hoped that the present Erie series will bring the fans out.

The Senators with their youth and hustle are the "talk of the league" everywhere they have appeared this year. It's hard to beat a "heads up" ball club, and that is the Senators this season.

New Castle will play at Oil City Saturday, Sunday and Monday, June 3, 4 and 5.

**MONDAY NIGHT GAME**

New Castle 000 000 200—2 4 1  
Youngstown 010 000 000—1 6 2  
Batteries: Churchill and Horne; Pfeiffer, Heiserer and Richardson.

New Galilee pulled one of the big surprises of the County league season Monday night by whipping Bessemer, 9 to 2, at New Galilee.

The Cementers were previously undefeated and had a record of seven wins.

Evans went all the way for New Galilee to get the win. He gave up eight hits but had good support and held the plate.

Caslatto's triple in the fourth with the bases loaded was the big blow of the contest. New Galilee plated six markers in that inning. Caslatto also singled for New Galilee and Manager Sam Ritz had two safeties.

Marv Donaldson had three singles for Bessemer.

Clerici stole home in both the fourth and sixth innings for the winners.

## Johnny Parsons Winner Of Indianapolis Grind

—Acme Telephoto  
INDIANAPOLIS—Johnny Parsons, collected the winner's trophy, and a rousing kiss from movie actress Barbara Stanwyck, yesterday, after winning the abbreviated 500-mile race, which was halted by rain after 345 miles.

and hour was better than his record-winning time of last year and earned him approximately \$15,000. He drove the same Blue Crown Special in both races.

Three-time winner Mauri Rose of South Bend, Ind., got third in the revised standings. Following Rose were Cecil Green of Oklahoma City and Bettenhausen in fourth and fifth respectively.

**By JACK ESTELL**  
(International News Service Staff Writer)  
INDIANAPOLIS, Ind., May 31—Handsome Johnny Parsons of Van Nuys, Cal., ruled as King Speed today in honor of his turnabout victory over Bill Holland of Miami in the 34th annual Indianapolis 500-mile auto race.

The small 31-year-old winner who was second to Holland last year was acclaimed the champion after 345 miles of a record race which was stopped because of a driving, dangerous rain. Parsons' average speed for 138 laps around the two and one-half mile oval was 124.002 miles an hour. This erased the previous top performance of 121.327 set by Holland in 1949.

**Won \$50,000**

Officials fluttered the checkered flag of triumph in front of Parsons' sleek, yellow car to prevent any possible deaths or injuries on the slippery brick and asphalt speedway.

Parsons' victory was worth approximately \$50,000 and four kisses from actress Barbara Stanwyck before 185,000 persons.

The early unofficial results announced Tony Bettenhausen of Tinley Park, Ill., as the second place driver, but the official check late last night shuffled the standings and named Holland the runner-up.

Holland's speed of 122.838 miles

## Senators Trade With White Sox

Even Up Trade,  
Three For Three

By JOE OPPENHEIMER  
(International News Service Staff Writer)

ST. LOUIS, May 31.—The Chicago White Sox may do their spring cleaning somewhat late, but apparently the executives of the club believe that old adage, "Better late than never."

General Manager Frank Lane announced in St. Louis yesterday the trade of second baseman Cass Michaels, pitcher Bob Kuzava and Outfielder Johnny Ostrowski to Washington for pitcher Ray Scarborough, first baseman Eddie Robinson and second baseman Al Kozar.

Cleaning House  
The housecleaning started Friday night when Manager Jack Onslow was fired and Coach John (Red) Corriden was elevated to field boss. Then on Monday the White Sox obtained outfielder Marv Rickert from Pittsburgh.

Lane estimated that the six-player transaction with Washington involved baseball talent worth \$600,000. No cash changed hands in the deal.

Farrell Defeats Har-Brack Here, 3-2

Farrell high school defeated Har-Brack high 3-2 Monday afternoon at Flaherty field in the quarter final round of the WPIAL baseball playoff tournament.

Butchko went all the way for Farrell and held the losers to five hits and struck out eight. Farrell will play the winner of the Scott Twp.-Burgettstown game, being played today, in the semi-finals at Beaver Friday.

Pirates Starting Hunt For Players

PITTSBURGH, May 31.—(INS)—Pittsburgh groggy Pirates who have lost eight straight games and skidded to sixth place rested today while General Manager Roy Hamey headed west on a player buying expedition.

St. Louis beat the Bucs twice yesterday, 17-13 and 8-5, before 33,182 boozing fans at Forbes Field. Hamey reportedly will confer with Pirate Scout Babe Herman on the coast in an effort to buy a pitcher and a hard-hitting left-handed batter.

It still goes that Cobb was the greatest ball player from both leagues and if you want to have some fun on that score get the record books and check one against the other.

## HERE and THERE IN SPORTS LAND

CROWS, of which it is estimated, there are about two million in the Keystone state, is one of the smartest of birds. They differ from other birds in that they are highly organized, like gangsters, they have cunning tricks, daring, and even good leadership. This is readily observed when they are out to kill young birds, rob nests or fight their natural enemies—the Great Horned Owl and the Hawks. Hunters, out for the Black Marauders, rely principally on crow calls to lure the noisy bird within firing range. Others include in their equipment a captive Great Horned Owl, or other crows as decoy aids. So-called professional crow hunters use a wooden or plastic call to imitate crows summing help, fighting or urging on an attack. If crows are close, a fighting call is sounded, increasing in intensity as they get closer. Oddly enough, though, crows do not fear gun-fire if the shooter is well-hidden from their sharp eyes. If the correct calling is continuous while they are being snowed down, the crows will continue to fly angrily in to the lure, even while members of their clan are seen falling dead to the ground.

Actually, the experienced callers are needed for the best shooting. Then there is little, if any interruption on the calling. This continuous noise makes the crows "lose their heads" and rush back again after others have been killed while running in on what they believed was an outcast, writes Carl Rogan of the I. N. S. Although the birds, themselves, are the best teachers some hunters rely on the various recordings available in sport good stores to duplicate them as closely as possible. They aren't easily fooled. No difference how good the calls might be, the Black Marauders will flare away before they get within shooting range if one attracts their attention by moving or not being properly screened. Along with the fun outsmarting crows goes the satisfaction of knowing that those brought down never again will take eggs of young or small birds and animals, or pull up the farmer's corn, because they are great destroyers of grain crops. Some farmers explain they plant one seed for himself, one for the worm and a third for the crow. With warm weather here, trees thick with foliage which provides a hunter with cover, now is the time to kill that crow.

Charles Rea and Fred Wimer, both of New Castle, have been recommended for letters in spring sports at Stetson U. at Deland, Fla. Rea for golf, and Wimer, for baseball. . . . E. Gene Schweinsberg and Eddie Longacre plan to fish in Canada, this summer. . . . Kenny Cotton may fish in Wisconsin this year if he can find time to angle. . . . To prevent a nylon leader from slipping at the hook and line ends, burn off the excess ends of nylon until a small ball is formed. Sports Afield says. . . . Lawrence Indies will practice this evening, and also Thursday evening. . . . Turk Delaney adds that George Gyp was the first All-American coached by Knute Rockne. . . . There will be no games, except possibly play-offs of postponed games in the City league until Sunday. . . . Charles Engle is the first non-alumnus to coach Penn State football since 1929, and the fourteenth grid coach in 68 years. . . . Bob Louis, Penn State captain will play for the North in the North-South All-Star lacrosse game at College Park, Md., June 9.

Seventy seven golfers from this district participated and Dunsmore was in 17th place. The first six men qualified. Milt had a card of 80-84-164 on the tough Oakmont course. A score of 154 or better was necessary to qualify.

The attorney, Benjamin Goldman, protested a parking ticket and was arrested for disorderly conduct after allegedly telling Patrolman Thomas Blank:

"You don't have the brains of a skunk."

Blank hailed Goldman before Justice of the Peace Robert Reidmiller, who imposed the fine.

## Complete Immunity And Reward Offered For Holdup Clue

BOSTON, May 31.—(INS)—Complete immunity and a share in the \$100,000 reward money was offered to anyone, including accessories to the robbery itself, who would furnish a clue to the \$1,500,000 Brink's Express holdup.

This move to crack the mystery surrounding the four-month-old stickup was made by Attorney General Francis E. Kelly and was agreed to by the Brink's award committee.

High point of the plan, which includes an air-tight method of giving information to authorities and still remaining anonymous, is the proviso that any accessory in the holdup will be eligible to share in the reward with safety.

Kelly disclosed he already has had "feelers" but that would-be informants hitherto had no assurance that they could share in the reward or that their identities would be kept secret.

## Rev. Sulmonetti To Mark Anniversary

Christ Methodist church, South Mill street, will observe the 12th anniversary of its pastor, Rev. F. P. Sulmonetti on Sunday, June 4 with appropriate services throughout the day.

It was on the first Sunday in June in 1938, that Rev. Sulmonetti assumed his duties in the city as pastor of Christ Methodist church known as the Italian Methodist church at that time. His subject was "Love So Amazing, Love So Divine" using John 3:16 as his text. He will use this same subject and text for his anniversary.

In addition to serving the South side and Hillside churches, Rev. Sulmonetti has been the first official chaplain at the Lawrence County Home under the appointment of the New Castle Ministerial Association, serving the past ten years. He has taken a stand to help the people of his parish and of the city in fields of religion, moral, education, philanthropic and civic reform.

Special music will be presented by the choir of the church with special vocal selections by Ethna Sulmonetti and violin selections by John Pacelli, with Mrs. Sulmonetti as the organ accompanist. Others participating in the celebration, include: Dr. Edwin S. Cooper, Sunday school superintendent, Mrs. Norma Marlin, retired missionary from India and Miss Emma Pearl of the church official board.

## Rotarians Hear Dr. J. P. Graham

New Castle Rotary club members heard a splendid Memorial Day address at their weekly luncheon meeting Monday noon when they were addressed by Dr. J. Paul Graham, pastor of the Third U. P. church.  
Dr. Graham stated that the best way to honor the soldier dead of our country was by dedicating ourselves to outlasting the acts which caused the deaths of so many of our fine young men, in the wars of our country.  
He stated that this country was more in danger of disintegrating from moral decay within than it was from the hands of an aggressor. Our patriotism, he stated, should include religion in its background, or the vitals of our national life will be eaten away.

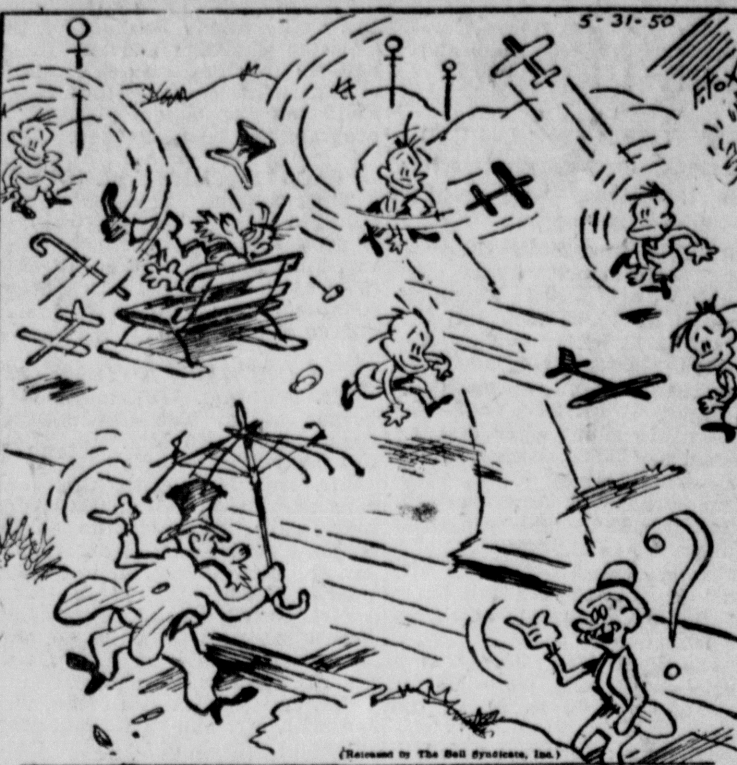

Guests of the club on Monday included Ford Pizor of Cleveland, John C. Vance of New Wilmington and Jack Cox of Columbiana, O.

### TRAFFIC FINES

LOS ANGELES. — (INS)—Los Angeles lost \$60,000 in traffic fines last year, but the city fathers aren't mad at all. Credit for the Southern California city's 300 percent drop in the traffic mortality rate compared with a national decline of 3 percent goes to Municipal Judge Robert A. Pfaff who metes out jail terms instead of fines to chronic violators.

## Dinner-Dance Tonight Ends Career Of NCHS Class '50

Graduation of the 508 seniors of the high school ended their scholastic careers Monday night insofar as education is concerned. Actually it was not the last function of their high school days. Tonight ends their days together as a class when the dinner-dance takes place in the Cathedral.  
The affair starts at 6:30 with the dancing starting at nine o'clock to the music of Blue Barron. From nine to twelve the dinner-dance is strictly a senior affair but at midnight the parents enter the picture with an augmented program that will run until three in the morning.  
Dancing, snacks, and a host of valuable gifts are on the program with the party breaking up around three o'clock.

The augmented dinner-dance was decided upon by a group of parents of the class members in order to obviate the dangerous custom of driving to other cities after the dinner-dance. Mt. Lebanon, Ellwood City and Farrell in this district have tried the idea and found it has worked.  
McKeesport has not tried the idea yet and this year's social affair of the class saw two cars bashed together and the youngsters hurt.  
Each of the students has been given a ticket for Wednesday night's affair. They are at liberty to leave when they desire but as they leave their tickets will be stamped and they will not be permitted to return later.  
"Lucky Fifty" class is known by and the dinner-dance program seems to indicate their luck is holding to the last.

## WAMPUM

The Rev. N. J. Schramm, pastor of the St. Monaca's Catholic church delivered the address to the graduates. Following the benediction by the Rev. Mr. Palmer, the recessional was played by DuWayne Kanagy.
